

Monte South

Above and beyond

Why settle for tiny apartments? Why settle for uninspiring amenities?
Why settle for less when you can be a part of a real landmark?

In the heart of Mumbai, spread across a vast expanse in Byculla, Monte South is where opulence thrives. It is truly one of a kind because it's set on a massive 12 acre plot - one of the largest remaining land parcels in South Mumbai. This has given us an opportunity to create an oasis of calm, beauty and serenity that will make you forget that you're in the middle of one of the biggest cities in the world.

The Project

The ultimate address of luxury

From enormous themed landscapes, lavish amenities, to luxurious apartments in towers that kiss the skies, Monte South offers the perfect blend of connectivity to all parts of the city, great views of the city's skyline, abundant green spaces, and a lot of charm.

*Rendered Image

An award-winning addition to the city skyline.

Realty powerhouses Marathon Group and Adani Realty have come together to create a residential landmark that will go on to become an endearing icon for the luxury capital. Designed by the inimitable Hafeez Contractor, Monte South is a magnificent project that towers above the city.

Apartments

Experience uncompromised luxury

Don't settle for increasingly compromised apartment sizes. After all, what is luxury without the feeling of grandeur and excess?

Monte South offers homes that are expansive in every sense - high ceilings, incredibly spacious rooms, and views that overlook the horizon. Detailed with the finest finishing, Monte South brings to you uncompromised luxury at every turn.

The typical living room at Monte South is immensely large and airy, incomparable to most other projects. Huge windows open up to gorgeous views of the city skyline.

There is no match for the super-sized bedrooms at Monte South. These massive bedrooms will spoil you with unparalleled comfort and panoramic views from huge floor-to-ceiling windows.

Step out onto the deck, and you'll feel like you've stepped right into the city sky. Enjoy mesmerizing views till where the sky meets the sea.

*Rendered Image + Actual View

Monte South's orientation is purpose designed to ensure panoramic views, and plenty of sunlight and ventilation in your home. The large windows invite the beauty of the outdoors to seamlessly fuse with the indoors. Double glazed windows keep the homes cool even during the summer.

Even our bathrooms have incredible views!
Laze in the bathtub with the city painting the backdro

Enormous kitchens with a massive amount of counter space.
You'll find excess and comfort in every aspect of Monte South.

3

The Dream Flat

Opulence in the skies

At Monte South, we wanted to give potential buyers a chance to truly experience the sheer grandeur that comes with living in a landmark luxury high-rise.

We got multi award-winning ZZ Architects to design an ultra-lavish dream home on the 28th storey of the 1st tower. It's a combination apartment of two 3.5 BHK homes, that's as luxurious as homes get, with views that are as surreal as they get.

Amenities

An oasis in the sky

Perched on the 8th floor podium is an oasis in the sky - high above the city, unlike any other. Acres of space for the mind to wander, waterscapes to soothe your senses, serene paths to stroll around, cabanas to laze in, and even a beach!

Dig your toes in the sand as you enjoy the sunset or play a game of beach volleyball on soft sands.

A deep connection to nature

Humans love nature, and our moods, health, and happiness are deeply impacted by it. Natural landscapes are incredibly diverse. So how do we incorporate that kind of diversity to the built environment?

Monte South gave us a huge canvas to integrate a variety of natural elements - greenscapes, waterscapes and even sandscapes. You'll find a vibrant mix of carefully-crafted greenery, water bodies, and even soft white beach sand.

The Science

People who are exposed to greenery are more friendly and supportive and less likely to have psychological fatigue or be rude to others (Kuo and Sullivan 1990).

Patients with a view of greenery healed faster and needed lesser pain medication than patients who instead saw a brick wall. (Roger Ulrich, 1984).

Take a dip in one of the enormous swimming pools, sunbathe by a cabana, or soak in the day under the shade of breezy palm trees.

The Jain temple at Monte South.
Your serene space of prayer.

In a city that's starved for open spaces, the Amazon themed landscaping at Monte South is designed to be a unique experience. The pathways, lily ponds, and pergolas are all tranquil spaces for you to unwind.

Location

An opportunity of a lifetime

Monte South enjoys an exceptional location right in the heart of South Mumbai. It is well connected to major highways, making your commute to anywhere in the city easy.

But there is much more to its location than just convenience. You see, every once in a while there comes an opportunity for exponential growth. Monte South, being located in Byculla, presents exactly such an opportunity. With radical transformation underway, it is a location with immense potential for growth.

Set for a radical transformation

For the heritage-rich quarters of Byculla, the time for a remarkable make-over has come. Byculla today finds itself in a similar situation as Lower Parel did about 12-15 years ago.

At Lower Parel most of the land was occupied by defunct mills. The area did not enjoy a good reputation despite enjoying a strategic location in South Mumbai. But things changed dramatically. Old mills became swanky malls, and residential complexes, restaurants, and corporate parks popped up overnight. Property rates at Lower Parel skyrocketed by almost 10 times in a span of 15 years!

With large mill lands now being redeveloped at Byculla, and given its strategic location at the center of the city, we believe Byculla is set to follow Lower Parel's trajectory and experience a radical transformation. Monte South, being developed on one of the largest available mill lands, is at the forefront of this transformation.

In the heart of the city...

Byculla is extremely well-connected to all parts of town.

Monte South finds itself strategically located with easy access to South Mumbai, the business districts of Lower Parel, the Western and Eastern Express highways, and the Eastern Freeway. Your daily commute will be a breeze.

Byculla is also surrounded by neighborhoods at the forefront of culture - offering the finest dining, shopping and entertainment experiences the city has to offer. From colonial Colaba and corporate Parel, to hipster Bandra and hotspot Andheri, the charm of every neighborhood is just a few kilometers away.

Construction

To achieve our goal of uncompromised luxury, we've partnered with the best in the business. Monte South is designed by the inimitable Hafeez Contractor, with landscape design by the world-renowned LSG Inc. With cutting-edge construction technology and practices being used for the project, Monte South is a stunning landmark that is built to last.

The Architect of Mumbai's Skyline

The architect behind Monte South's landmark towers is Hafeez Contractor; a visionary who has impacted the skyline of metropolitan India with his unmistakable signature style.

He set up practice in 1982 with a dedication to design excellence, efficient delivery, and sophistication in building technology. Today, he heads the largest architectural firm in India, with over **550** team members. The firm has to its credit over **2500** clients and **7.2 billion** square foot of on-going projects in **100** cities and **5** countries.

Masters in Outdoor Living

The imaginative landscapes at Monte South have been envisaged by the award-winning American landscape firm LSG Inc.

Their expertise includes master planning, site design, environmental assessments, and landscape architecture. They firmly believe in creating spaces that are smart, sustainable, creative, and transformational. Their impressive portfolio includes projects throughout the Eastern Seaboard, China, and India.

Rock solid structure

The revolutionary Korean Kumkang formwork technology employed at Monte South allows for simplified and faster construction activity with an excellent, smooth concrete finish. It helps to reduce the time taken for construction while creating rock-solid, leak-resistant structures.

Some of the best structures in the world set themselves apart from the rest because of the kind of thought that goes into their construction.

Monte South is no different - it's foundation rests on future-proof construction practices that are efficient in function and sustainable in form

Micro-Managed Quality

An on-site batching plant generates high-grade concrete on demand, and an on-site material testing lab ensures the highest levels of quality control. Our engineers go right till the source of the raw material to ensure that quality is uncompromised.

Pioneers of Best Practices

We do not outsource our construction and our engineers retain full control over construction quality. With our leadership team having decades of engineering and construction expertise, we have been pioneers of many best practices in the industry.

Optimising Energy Usage

We have conducted extensive solar and wind studies to ensure that the towers are oriented to maximize natural light and ventilation while reducing energy consumption. Double glazed windows keep the homes cool even during the summer.

Practicing Sustainability

Eco-friendly construction choices have been consciously made, including the use of low VOC materials, reduced CFC content, and ozone friendly fire-fighting. On-site debris is recycled and reused, preventing construction waste from causing ecological damage.

7

Developers

Monte South is an alliance of pioneers - a joint venture between two real estate powerhouses - Adani Realty and Marathon Group. Over the years, the companies have created award-winning projects that have gone on to become landmark residential and commercial spaces, with over 87 million sq. feet of land developed between the two names.

Touching your lives, the Adani way.

Adani Realty is one of the youngest arms of India's top infrastructure and development conglomerate - the Adani Group. With a commitment to getting India on par with the most advanced countries around the world, we have begun development in our most promising cities, integrating the finest design aesthetics with cutting edge construction technology.

As part of the Adani Group, we have a legacy of trust and excellence we live up to; a fact that has driven us to achieve a lot in a relatively short period of time. At present, we are developing over 69 million sq. ft. of residential, commercial and social club projects across Ahmedabad, Mumbai, Gurgaon, Mundra and Kochi. Our aim is to revolutionize real estate, keeping in mind the varied aspirations and lifestyles of new age India.
